**4. Management Staff has contributed significantly to Agency operations as follows:**

- a. Recommended payment of awards totalling \$18,395.00 based upon an estimated first year's savings of \$172,086.00.**
- b. Undertook a program to revise regulatory issuances by limiting their content to policy, authority and responsibility.**
- c. Conducted O&M studies recommending actions which resulted in improved performance in the following general areas: OCR and Map Libraries; processing of broadcast monitor reports; processing of overseas and domestic travelers; machine record reports; Agency manpower control and utilization; and document locator systems.**
- d. Completed studies for several O/S Offices which indicate that use of additional IBM machines in conjunction with revised accounting and reporting systems might possibly achieve annual savings of \$170,000.00.**
- e. In conjunction with DOP, arranged for a contract with IBM for a study leading to the possible development of a special device to solve records integration problems.**
- f. Recommended machines for use in other areas of the Agency which may effect annual savings of about \$55,000.00.**
- g. Instituted numerous reporting and record-keeping improvements which are estimated to effect annual savings of \$200,000.00.**
